Cunjindi

Fresh fruit grower and exporter

Pujiang Tangguo Agricultural Technology Co., Ltd.

Six Chinese fresh-fruit lines from five group growing regions and named sourcing districts. Shipped to Thailand, Vietnam, Singapore, Canada and Russia.

COMPANY

Group roots since	1988 - Simaqiao fruit wholesale market, Chengdu
Registered entity	Pujiang Tangguo Agricultural Technology Co., Ltd.
Registered address	118 Limin South Road, Shou'an, Pujiang County, Chengdu, Sichuan, China
Unified social credit code	91510131MA6A5CPL8T
China Customs status	Consignee and consignor of import and export goods
China Customs code	5101960CJJ · registered 4 June 2021 · Rongjin Customs
General Manager	Tang Ting · General Manager
Group growing regions	Jintang, Sichuan (Citrus) · Huili, Liangshan, Sichuan (Soft-seed pomegranate) · Yunnan (Blueberries and prunes) · Xinjiang (Prunes) · Hunan (New-variety citrus)
Group markets shipped to	Thailand · Vietnam · Singapore · Canada · Russia

Registration to import and export goods. It is not a record of past shipments and not a destination-market approval, and this code is not an orchard or packhouse registration number - those are separate filings and are listed on their own line above.

Markets we have shipped to. Start years, volumes and container counts are not published here, and a market on this list is not a standing programme. Ask for the destination you are buying into and we will tell you what has actually moved there.

The five growing regions and export history cover the group, its brother companies and family businesses, not only the registered entity. Four fruit lines are group-grown. Ehime No.38 is sourced from Meishan and Danling; green honey plum is sourced, with its area to be confirmed per lot. Shipment documents identify the actual exporting company; a group shipment is not automatically a Tangguo shipment.

REGISTRATIONS, CERTIFICATES AND THEIR SCOPE

ISO 22000	Food safety management. Current documents, validity and applicability subject to verification.
GLOBALG.A.P.	Citrus only. Current documents, validity and applicability subject to verification.
Registered export orchard	Filed for outbound fruit. Current documents, validity and applicability subject to verification.
Registered export packhouse	Application under inspection. Not held yet; nothing is claimed from it.

GLOBALG.A.P. is recorded for citrus only, not pomegranate, blueberry or prune. Available documents, validity and lot applicability remain subject to verification. Export packhouse registration is under inspection; no approval is claimed.

MEDIA

Our grading line was featured on CCTV-13 in two news reports: 7 September 2025 and 11 January 2026. This is news coverage, not a quality certificate, and it is presented that way on the website.

* Pomegranate weights refer to CCTV-13, 7 September 2025, not a permanent lot standard. Other figures and seasonal windows are typical variety references, not measured lot guarantees or current stock. Specifications and availability are to be confirmed per lot.

WHAT IS AGREED PER LOT, AND IS DELIBERATELY NOT PRINTED HERE

This profile is not a quotation. Prices, minimum quantities, payment terms, packing, logistics and delivery dates require a separately approved lot-specific offer. Send the fruit, destination, volume and timing requirements to sales@cunjindi.com for review. Any offer depends on confirmed availability and agreed terms. Available certificate documents and their scope are subject to verification.
